

INVESTMENT PHILOSOPHY

The Kapitalfonds L.K. Schwellenländer advised by Keppler Asset Management Inc. as sub-advisor is managed in accordance with an active, value-oriented quantitative management approach. The fund invests globally in equities from the emerging markets and aims at outperforming the MSCI Emerging Markets Total Return Index over a holding period of 3 to 5 years while keeping lost risk at below-average levels.

INVESTMENT STRATEGY

The fund is managed in accordance with the top-value model, which assesses entire markets - based on their fundamentals - as a purchase or sale opportunity. The fund invests in a combination of under-valued emerging markets and remains invested until these markets are slightly overvalued. The allocation process aims for equal weighting of the individual countries. Within each emerging market, the sector and industry weightings are based on the relevant country index, thereby limiting potential macroeconomic risks. The fund is almost fully invested and not currency-hedged.
